

corporate summary

ClickExpo seeks to advance the conventional trade show by providing a platform for suppliers to build mutually beneficial relationships with their target audience online.

ClickExpo's vision is to make the online exhibition utility easy-to-use by both businesses who exhibit as well as the users who visit.

As a business, ClickExpo generates revenue by providing companies with the opportunity to exhibit their products and services online.

Each exhibition stand within every exhibition delivers a measurable, cost-effective online marketing campaign for every business. Our online exhibitions also enable users to gather all the information they need in one place, enabling them to make the best purchasing decision.
